

## Data Breach Prevention Services

*Risk Assessments and Pre-Emptive Cyber Security*

Assessments are crucial in determining the effectiveness of an organization's current security, and in judging whether correct remediation has taken place after an incident. Kivu has deep expertise in both reactive and proactive data security services. Kivu's experience in data breach investigations provides a strong foundation for providing proactive services – Kivu knows what can (and likely will) happen if security fails.

### About our Team

Kivu's forensic investigators are experienced in protecting organizations against compromise of data, theft of trade secrets and unauthorized access to data. Our qualifications include forensic certifications (Encase Certified EnCE, SANS GCIH Incident Handlers, Certified Ethical Hackers, and reverse malware experts); IT certifications (Certified Information Systems Security Professional CISSP and Certified Information Systems Auditor CISA); and prior backgrounds as legal counsel, IT administration, and network security.

Kivu's investigators have testified as computer forensic experts in state and federal court, and presented their findings to state and Federal regulators.

## SERVICES OFFERED:

### *Preemptive Pre-Breach Services*

Kivu provides the highest **technical expertise** and legally sound, practical business solutions that are crucial to successfully adopting **long-term, cost-effective remediation**.

Kivu firmly believes that to be effective, in both immediate and long-term results, assessments should encourage and incorporate active dialogue between the client's stakeholders, IT department and the Kivu consulting team. This produces not just a technical review, but helps senior management understand the different demands within their organization. Kivu's goal is to provide experienced, unbiased advice which helps organizations achieve better control over information security and the governance of their sensitive information.

With more sophisticated and increasingly frequent cyberattacks, we are here to assist. Inquiries about Kivu's Data Breach Prevention Services should be addressed to:
