

Kivu Cyber Security Solutions for the European Market

Kivu is committed to providing rapid response to cyber incidents throughout the UK and European Union. Kivu's expanding operations are based in London and Amsterdam, with partners in Germany and Poland. We work with leading UK and EU breach coaches and claims adjusters, and partner with some of the largest insurance firms in the London market.

LOCAL EXPERTISE

Services Tailored to Meet UK and EU Regulations

Cyber investigations are handled by UK-based analysts with backgrounds in law enforcement, corporate IT and Big Four consultancies.

Case data and evidence is stored on Kivu's secure UK and Dutch servers.

All GDPR personal data physically remains in the EU.

Kivu is certified as a participant in the EU-US Privacy Shield Framework.

Kivu's secure, legally defensible incident response (IR) analysis provides clients with the necessary information to comply with GDPR data breach reporting requirements, and is designed to exceed EU privacy regulatory standards.

GLOBAL CAPACITY

Europe-wide coverage supported by a global team

Onsite attendance in the EU within 24 hours by IR and IT technicians.

Remote data collection and fast breach analysis with Kivu's proprietary technology minimizes onsite travel and reduces claim costs.

Forensic analysis is carried out in-house by Kivu staff in the UK and Netherlands, with additional capacity available 24x7x365 through Kivu's North America-based IR teams.

About Kivu

Kivu is a leading global cyber security firm that offers a full suite of pre- and post-breach services, specializing in the forensic response to cyber-attacks and ransomware incidents. We deliver cutting edge cyber security solutions to organizations in need and are a trusted cyber incident partner to insurance carriers and law firms worldwide.
