

KIVU

CYBER RISK & RESILIENCE
SERVICE

CYBER RISK & RESILIENCE

Kivu's Cyber Risk & Resilience (CRR) service was designed in response to organizations' urgent needs to prepare their security organizations for future disruptive events and evolving risks, build and optimize their security programs, and then test and validate implemented controls.

WHY CYBER RISK & RESILIENCE

CRR can provide expert security services to help organizations:

- 1 Protect or gain insurability
- 2 Avoid chaotic business disruption
- 3 Accelerate sustainable business transformation
- 4 Establish resilience operations
- 5 Maintain compliance
